RE: Harco Manufacturing Distributor in Singapore

To: All

In order to serve customers all over the world, Harco Manufacturing Company has distributors in key geographical areas. One of those distributors is Chrisnetic Pte Ltd in Singapore. Ms. Christine Wu has represented Harco Manufacturing Company in the Singapore Region for many years and when Chrisnetic Pte Ltd was established Harco Manufacturing Company was excited to be a part of the products offered by them.

The Harco products that Chrisnetic Pte Ltd can supply you with are Spark Arrestors, Rain Caps and any of your exhaust needs. They have the expertise that you're looking for and can assist you in sizing your Spark Arrestors for the appropriate engine size.

I thank you for your interest in the Harco Manufacturing product lines and encourage you to work with Chrisnetic Pte Ltd.

You may also contact me if you have any other questions.

Regards,

Dale Gremaux
